# **SOCIAL STATISTICS IN NIGERIA**

2009

Federal Republic of Nigeria

# ADMINISTRATIVE MAP OF NIGERIA

## **PREFACE**

The Social Statistics Report is a Compendium of the contemporary social situation in Nigeria. Over the years, increasing interest is being focused on better measurement of social goals and in assessing the impact of economic growth and distribution of resources across the three tiers of government.

The sampling unit adopted, scope and coverage of the surveys from which most of the data were collected and published in this publication, were organized by Censuses & Survey & Field/Methodology Departments of this organization.

Other sources of data include Administrative Records from relevant subject matter Ministries, Parastatals and Statistical Agencies. In most instances, time series data sets spanning 2004 to 2008 are presented statistics over this time frame on annual basis and formed the benchmark for measuring the social as well as Economic conditions of the citizenry of Nigeria. These data sets covered such areas like Education, Health, Housing Conditions, Households, Employment, Public Safety (Road Accidents and Crime), Population/Vital Registration, the Legislature and Communication (NIPOST, NITEL and Private Operators Transportation, Energy/Electricity as well as Religion.

The National Bureau of Statistics is grateful to the Planning, Research and Statistics Department in all the relevant Ministries and Agencies, which have been very helpful in providing the data needs for the various

components of this report. It also appeals to other agencies that were unable to respond to our data requests for their co-orporation in future compilations. This is the only way we can present timely, accurate and comprehensive data series which will be valuable to government policy formulation processes and other research programmes. The publication is hereby recommended to policy makers, researchers' students, business community, development partners and the general public at large. The National Bureau of Statistics will welcome suggestions and comments on how to improve this publication. We would also appreciate constructive criticisms on such issues like errors of omission and commission to improve on the standard of our subsequent reports.

DR. V. O. Akinyosoye  
STATISTICIAN GENERAL  
NBS

## CHAPTER ONE

### HOUSEHOLDS

A Household is constituted by group of people living together and maintaining a unique eating arrangement. This chapter presents data on demographic characteristics of households such as number of persons living in households, as well as household's size. It also show the spread, placement or location; geographically or within a particular area.

The economic and social development of a nation may be determined by its demographic variables such as the structure of the population.

Table 1.1 shows the percentage distribution of persons in the households, disaggregated by sex, size and State for a five year period, 2004 to 2008. In the period under review, households had more male than female members.

On a State basis, Sokoto maintained the lead in 2008 with 54.4% male members of households, while Osun had the highest percentage of female members, 52.1 for the same year. The largest household size was recorded in Kebbi with 10.9 in 2008, while Ekiti and Ogun recorded the least of 3.2, each.

Table 1.2 shows the population distribution by type of households and sex for 2006. The total number of households in Nigeria was 28,900,492 in 2006. The total number of regular households accounted for the highest number with 28,197,085 (about 95.7%), while Transient persons households recorded, the least of 22,932, (about 0.1%).

Table 1.3 shows both percentage and absolute distribution of population by relationship to the head of households in 2005 and 2006 respectively. In 2006, children accounted for the highest member of relationship to the head of households with 74,846,086 (about 53.3%), while parent with 1,337,158 (about 0.01%) recorded the least. On Gender basis, male recorded the highest with 71,345,488 (about 50.8%) compared to female with 69,086,302 (about 49.2%).

Table 1.4 recorded the distribution of population (age 6 years and above) by literacy status, sex and State. It shows that, 75,751,576 of this age group are literate and of this number, about 54.0% are male while female accounted for 46.0%. On State basis Lagos recorded the highest with 6,843,999 (about 9.0%), while Nassrawa had the least of 782,734 (about 1.0%)

Table 1.5 shows the distribution of population (6 years and above) by State and schooling status, 2006. Never attended recorded the highest with 36,141,352 (about 31.9%), followed by attended in the past but not now with 31,197,215 about 27.6%. A total of 45,920,004 (about 40.5%) persons are currently attending various schools from primary to tertiary. On State basis, Kano had the highest number of never attended with 2,896,331 while FCT recorded the least of 228,039. Kano also recorded the highest number of children in the primary school with 1,217,553, while FCT had the least with 191,290.

Table 1.6 shows percentage distribution of households head by State and household's size, 2006 to 2008. In the three years, male headed households had the highest with 83.5% 83.7% and 86.8% respectively compared with 16.7%, 16.3% and 13.2% recorded by female headed households. In 2008, Yobe State recorded the highest male headed households with 98.6% while Abia had the highest female headed households with 31.9%.

Table 1.7 shows percentage distribution of person by State and age group 2006 to 2008. In 2008, age group 0-9 had the highest percentage of 16.3 and 14.6 respectively for male and female. The least was age group 70-79 with 1.0% and 0.5% for male and female respectively. On a State basis, Zamfara had the highest percentage distribution of members about 24.0 in age group 0-9 years for male while Imo had the least with 6.8%. Conversely, Jigawa recorded the highest percentage of 20.3 for female while Imo maintained the least 6.4%

Table 1.8 shows population distribution of households members aged 6 years and above by educational attainment 2006. Population with no education recorded the highest figure 43,660,887, while others had the least of 757,053. On a State basis, Kano had the highest none education with 3,320,983 (about 7.6%) while FCT recorded the least of 268,936 (about 0.6%).

Table 1.9 present average household sizes by State in urban and rural area, 2007 and 2008. In both years, rural area recorded he highest average households size of 4.7 and 5.4 respectively, compared with 4.0 and 4.6 recorded in urban area.

## **CHAPTER TWO HOUSE CONDITION**

As a component of household's statistics, housing condition play varied roles in the life of the people. This chapter provide indicators in measuring the standard of dwelling houses and availability of certain infrastructural facilities in the dwellings. In some ways, they measure the standard of living of the people of Nigeria. These are indicators generated from National Bureau of Statistics regular surveys.

Table 2.1 shows the percentage distribution of households by State and type of tenure, 2005-2008. In 2005, there were over 28million households in Nigeria. The number increased by 8.98 per cent to over 30 million in 2006. Normal rent accounted for 25.9 per cent of the tenures in 2005, increasing to 41.2 percent in and dropped to 14.4 per cent in 2008. On the other hand, owner occupiers recorded a steady increase over the years from 30.9 percent in 2005 to 71.7 percent in 2008. State, basis, Kebbi recorded the highest percentage of owner occupier with 97.7, while Lagos had the least of 26.2 percent.

Table 2.2a shows the percentage distribution of persons aged 15years and above by marital status and State for 2006 and 2007. In 2006, 63.4 per cent of people within these ages were married and this fell in 2007 to 61.9 per cent. The percentage of persons not married in 2006 was 29.2, but rose to 30.8 in 2007. Apart from married and divorced persons which had decreases between the two years under review. Every other group recorded increase in 2007 compared to 2006.

At the State level, Zamfara recorded the highest percentage of married persons in 2007 with 83.4%. The least was Akwa Ibom with 47.3 per cent in 2007; Anambra recorded the highest percentage of widowed with 12.0 followed by Imo and Abia with 10.7 and 10.6 per cents respectively, while the least were Nasarawa and Niger with 0.5 per cent each.

Table 2.5 shows the percentage distribution of households by major sources of water for 2005-2008. In 2005, households with pipe-borne water treated recorded 12.7 per cent and it increased to 25.6 per cent in 2006, but fell to 7.7 per cent in 2008. On State basis, Ekiti had the highest percentage of households with pipe-borne water treated 26.9, while Anambra and Benue recorded none. Also in 2008, 28.4 per cent of the households sourced water through Borehole/hand pump, while 27.1 per cent sourced through Stream/Pond/River/Rain water which dropped from 30.4 per cent in 2005.

Table 2.6 shows the percentage distribution of households by type of refuse disposal facility for 2007 and 2008. Refuse disposal at unauthorised refuse heap recorded the highest in both years under review. It increased from 44.9 per cent in 2007 to 50.5 per cent in 2008. Disposal within compound reduced from 37.8 per cent in 2007 to 36.0 per cent in 2008. Government Bin/Shed recorded the least in both years with 2.5 and 1.7 per cent respectively. In both years, Lagos State recorded the highest percentage of households refuse being collected by the Government Agency, 22.1 per cent in 2007 and 33.6 per cent in 2008.

Table 2.7 shows the percentage distribution of households by State and type of toilet facility for 2007 and 2008. Nationally, 43.0 per cent used covered pit latrine in 2007, but decrease to 38.3 per cent in 2008. Also, 8.6 per cent had none in 2007 which slightly increased to 8.8 per cent in 2008. The flush to septic tank recorded 9.6 per cent in 2007 but this increased slightly to 10.3 per cent in 2008; and Lagos State recorded the highest in both years with 39.2 per cent and 45.5 per cent respectively. Some States like Borno, Sokoto, Taraba, and Zamfara had recorded nothing.

Table 2.8 presented the percentage distribution of households by type of housing unit for 2007 and 2008. Single room housing unit recorded the highest in both years with 68.6 per cent in 2007 and 66.3 per cent in 2008, while Duplet housing unit had the least 0.4 per cent in 2007 and 0.3 per cent in 2008. On State level single room housing unit had high percentage in Katsina and Bauchi with 98.7 and 98.1 respectively in 2007, while Bauchi took the lead in 2008. Zamfara recorded the lowest percentage of 4.6 in 2007 and 20.2 per cent in 2008.

Table 2.9 shows the percentage distribution of households with 98.6% by type of fuel for cooking for 2007 and 2008. Households using wood had the highest with 74.1 and 79.6 per cent respectively. Households using kerosene decreased from 22.9 per cent in 2007 to 18.5 per cent in 2008. This may be attributed to high cost of kerosene in the market. In both years, households using electricity and gas recorded the least with 0.7 per cent each in 2007, 0.2 per cent for electricity and 0.6 per cent for gas in 2008. Lagos State recorded the highest usage of kerosene in years, 89.7 per cent in 2007 and 91.1 per cent in 2008, while Bauchi and Jigawa recorded the least with 1.6 per cent each.

Table 2.10 shows the percentage distribution of households by State and type of electricity supply for 2007 and 2008. Energy supply forms the bed rock of economic development. Over the years, more than 40.0 per cent of the households were without electricity in the country, 41.4 per cent in 2007 and 48.0 per cent in 2008. In 2007, about 47.3 per cent of the households used electricity from Power Holding Company of Nigeria (PHCN), and this figure decreased to 40.4 per cent in 2008. It was observed that Taraba State recorded the highest percentage of households without electricity in 2008, about 88.8 per cent, while Lagos with 0.3 per cent recorded the least conversely; Ogun State recorded the highest percentage of households using PHCN with 69.8 per cent, while Taraba State had the least with 2.8 per cent.

Table 2.12 shows the percentage distribution of persons by type of building embarked upon in 2008. From the available indicators, persons embarked on building for residential purpose accounted for over 93 per cent in 2008. The following States Ebonyi, Ekiti, Lagos, Nasarawa, Taraba, and FCT recorded the highest with 100 per cent, while Delta with 60.0 per cent recorded the least. On commercial basis, Abia State, Akwa Ibom State recorded the highest percentage of 15.2 each, while Borno State had the least with 1.4 per cent.

Table 2.13 shows the percentage distribution of persons by stage of building completion, 2008. Nationally, 24.33 per cent of persons who started building, completion such project, while 23.77 per cent were at roofing level. On State basis, Gombe recorded the highest percentage of completed buildings with 65.57 while Katsina recorded the least.

## CHAPTER 3 EDUCATION

### 3.0 INTRODUCTION.

There is no doubt that Education, more often than not, holds the key to other conditions of existence. The working economic and social conditions of individuals have a direct effect from the level of education.. Good and quality Education driven by equally deliberate government policy is all that is needed for such advancement and human development.

The national educational system is based on 3 major levels- the primary, secondary and tertiary on which data were produced..

3.1 National summary of primary school statistics (2004-2008). Table 3.1 shows that the total number of primary schools in 2008 was 54,434. The point it was since 2006. Pupils enrolment dropped by 1.56 percent in 2008 from the 2007 figure. This situation could be responsible for a drop of 21.74 percent in teacher/pupil ratio within the same period which amounted to a healthier development. Total number of classrooms also remained the same (319,590) in 2008 as it was 2 years back (2006).

#### 3.1a National Summary of Secondary School Statistics (2004-2008)

The total number of secondary schools increased from 10,913 in 2004 (67.12 percent) to 18,238 schools in 2006, and remained the same till 2008. Total students enrolment increased slightly in 2008 by 9.19 percent over the previous year. Although, the number of classrooms did not increase within the 5-year period, the greater increase in the number of engaged teachers resulted to a 17.24 percent in the teacher/pupil ratio.

3.2 Table 3.2 show the total number of primary schools in Nigeria by State between 2004 and 2008 inclusive. The largest number of primary schools (6.90 percent) was found in Kano State, followed by Kaduna State with 6.09 percent of the national total. The least number was recorded in the Federal Capital Territory with 0.85 percent.

3.7 In the number of secondary schools by State as shown in table 3.7, the largest number was however recorded in plateau with 6.15 percent. This was followed by Delta State with 5.74 percent, while the least of them was also recorded in the Federal Capital Territory with 0.46 percent.

#### 3.12 Total Enrolment In Adult Literacy Education Centres By State And Gender (2004-2008).

The total enrolment in adult literacy education in 2008 was recorded as 1,129,365, a 39.24 percent decrease from the previous year. Female enrolment took a larger proportion of the total with 50.35 percent than that of the male, as shown in table 3.12. The larger enrolment was recorded in Osun State with 6.96 percent, followed by Kano State with 6.69 percent. The least was recorded in Ekiti State with 0.18 percent.

#### 3.16 National Summary of Nomadic School Statistics, 2004-2008.

The total recorded nomadic schools in 2008 was put at 2289, a decrease of 5.65 percent from 2007 record as shown in table 3.16. Total enrolment also decreased by 3.93 percent, although the total number of teachers increased significantly within the same period (2008) by 39.17 percent. The total number of classrooms has also increased by 1.55 percent. However, the pupil/teacher ratio decreased by 2.94 percent which could be a direct effect of the decrease in pupil enrolment and increase in teachers engagement over the same period. Bauchi State had most of the teachers followed by Kaduna State as shown in table 3.15, while Kano State followed by plateau State recorded the largest pupil enrolments with 39,225 pupils and 32,105 pupils respectively (table 3.14).

#### 3.26 Application and Admission into Nigerian Universities by State Of Origin, 2003/2004-2007/2008.

A total of 1,054,083 applications were made for admission into Nigerian universities in 2007/2008 session. Out of this total, only 47,476 admissions were made resulting to only 4.50 percent as could be seen in table 3.26b and 3.26c. This is however a drop by 6.51 percent over the previous (2006/2007) session record. Enugu State recorded the largest admission with 8.49 percent in 2007/2008 session, followed by Edo (7.52 percent), and Anambra (7.43 percent).

### 3.34 National Youth service Corps (NYSC) Distribution by State and by Sex (2004 - 2008)

Production and distribution of youth corps have been on the increase within this period under study as table 3.34 shows. The year 2008 had the largest distribution with 187,742 corp members, which was a 42.53 percent increase over 2007 record. Male corp members however had the largest distribution with 54.4 percent. On State basis, male corp member also dominated distribution in almost all the States except in Lagos (48.3 percent), Oyo State (49.0 percent) and FCT (46.9 percent).

On distribution by discipline, as shown in Table 3.34, ACCTS/BUS-STUDIES consistently recorded the largest throughout the period. The largest was in 2008 with 28,949 corp members which is 28.61 percent increase over the previous (2007) year's record, except others' that had 31,350 corp members.

### 3.39 Percentage of Adult and Youth Literacy In Any Language, 2008.

The percentage of adult literacy was 66.0 compared to 80.0 for the youth in 2008. Looking at this measure on State level, Imo State had the highest on youth with 99.2 percent, followed by Lagos State with 99.0 percent. Bauchi State had the lowest with 48.9 percent. On the adult category, however, Lagos State had the highest with 95.0 percent, followed by Edo State with 91.1 percent while Katsina State had the lowest with 29.6 percent. On gender, literacy level was generally higher among male than in female. On adult male, it was 73.8 percent as against 58.1 percent in female, while it was 85.6 percent in male youth as against 74.1 percent in female youth.

## CHAPTER FOUR HEALTH

The main sources of data for this chapter are the Federal Ministry of Health, National Agency for Food, Drugs and Administration and Control (NAFDAC), Multiple Indicators Cluster Survey (MICS), NBS/CBN socio-economic survey on Nigeria and Federal Ministry of Water Resources.

Table 4.2a shows HIV/AIDS projected population by State (2002-2007). There was a downward trend over the years considered. The population in 2002 decreased from 3,532,335 to 3,295,862 in 2003 by about 3.9%. Also 2006 decreased to 3,082,963 in 2007. However, it rose to 3,594,087 (about 14%) in 2008.

Table 4.2b shows HIV/AIDS prevalence rate in Nigeria (2001, 2003, 2005 and 2008). Between 2001 and 2003, the prevalence rate increased from 4.6% to 4.8% while between 2003 to 2005. It rose from 4.8% to 11.4% however, between 2005 and 2008 the prevalence rate decreased from 11.4% to 4.6%.

Table 4.6a shows cases of selected notifiable diseases in 2008. Malaria was the highest among the selected diseases with 2,755,733 and was followed by Diarrhoea (SWB) which was recorded 188,868. The least was Tetanus which accounted for 882.

Table 4.7a shows reported death of selected notifiable diseases in 2008. Malaria claimed the highest number of death among the notifiable diseases with 103,602 and was followed by HIV/AIDS which recorded 37,815. The least among the notifiable diseases was Tetanus (N) with 109.

Table 4.8.2 shows the number of registered product by NAFDAC (2001-2008). There was appreciable increase in the number of registered product from 1,544 in 2001 to 6,545 in 2004. In 2005 and 2007, the number dropped to 4,994 and 5,938 respectively. However, in 2008 it rose to 6006 (about 0.1%)

Table 4.8.3 shows the completed application forms received by NAFDAC (2002-2008). There was fluctuation within the period. 2008 recorded the highest number of completed application forms received with 9,264 (about 48%). It was followed in 2004 which recorded 6,545 while the least was 663 in 2003.

Table 4.10 shows percentage of pregnant women receiving Anti- Tetanus injection by State (2003-2008). The highest percentage receiving the injection in Nigeria during the period was 86.6% in 2008, followed by 75.10% in 2007. The least was 31.74% in 2003. Top on the list among the States in 2008 were Abia, Anambra, Benue, Borno, Ekiti, Kogi, Ogun, and Yobe which recorded 100% each. The least States were Edo and Bayelsa with 8.3% and 44.4% respectively.

Table 4.11 shows percentage of pregnant women registered with clinics by State (2003-2008). The highest percentage registered with clinics in Nigeria was 96.8% in 2008, followed by 47.90% in 2007 and the least among the period was 43.2% in 2006. Top on the list among the States were Abia, Adamawa, Anambra, Akwa Ibom, Benue, Borno, Delta, Ebonyi, Ekiti, Enugu, Gombe, Imo, Kano, Kogi, Kwara, Lagos, Nasarawa, Ogun, Ondo, Osun, Oyo, Plateau, Sokoto, Yobe and FCT which recorded 100% each. The least among the State was Zamfara. With 68.8 per cent.

Table 4.22a shows reported cases of Tuberculosis in Nigeria (2004-2008). The total number of all cases detected increased throughout the period. It rose from 59,943 in 2004 to 90,311 (about 34%) in 2008. The total new smear positive cases detected followed the same pattern. The average treatment success rate was 0.8%.

Table 4.22b shows reported cases of Leprosy in Nigeria (2000-2008). There was a downward trend from 7128 in 2007 to 5243 in 2003. It decreased to 5034 (about 0.02%) in 2004. However, in 2005, it rose from 5034 to 7808 (about 55%) in 2006. MB(%) reached its peak in 2007 with 89.9%.

Table 4.23 shows malaria cases in Nigeria from 2004-2008. It dropped from 3,247,241 in 2004 to 3,183,072 (about 2%) in 2005, and rose to 3,547,830 (about 11%) in 2006. However, in 2007 it

dropped to 2,934,174 (about 41%) in 2008. Lagos topped the list among the States in 2008 with 229,339 followed by Katsina which recorded 228,814. The least among the States was Gombe with 12,624.

Table 4.24 shows reported deaths from Malaria (2004-2008). There was fluctuation within the period. In 2007, Malaria claimed the highest number of death recorded. It dropped from 6,090 in 2007 to 5,540 (about 9%) in 2008. Katsina topped the list among the States with 1,510 followed by Edo which accounted for 1,203. The least among the States was Akwa Ibom with one (1)

Table 4.25 shows reported deaths from Malaria Anaemia severe (2004-2008). There was a steady increase between 2004-2007 before it dropped to 317,534 (about 41%) in 2008. Kebbi topped the list among the States with 42,359 followed by Kano which recorded 30,834 and Ekiti was the least with 340.

Table 4.26 shows cases of Malaria pregnant women 15+ (2004-2008). There was an upward trend over the period considered except that it dropped in 2008. It decreased from 351,396 in 2007 to 229,512 (about 65%) in 2008. Kano topped the list among the States with 24,353 followed by Katsina which recorded 17,826. The least among the States was Plateau with 120.

Table 4.27 shows death from Malaria/Anaemia severe (2004-2008). There was an upward trend over the period considered. It rose from 2,565 in 2007 to 3,757 (about 46%) in 2008. Oyo topped the list among the States with 2,019, followed by Kano which recorded 325. The least among the States was Ebonyi with 2.

Table 4.28 shows reported death from Malaria pregnant women 15+ year (2004-2008). It dropped from 216 in 2004 to 177 (about 18%) in 2005, and rose to 191 (about 0.8%) in 2006. However, in 2008 it dropped from 1,634 in 2007 to 294 (about 82%). Katsina topped the list among the States with 87, followed by Yobe which accounted for 51 and the least were Bauchi, Benue, Kaduna, Kogi, Ogun and Rivers with one (1) each.

Table 4.31 shows percentage distribution of children (one year or less) by type of immunisation received, 2008. At National level vitamin A was the highest type of immunisation received with 43.9%, followed by OPV3 which recorded 13.7%. The least was measles with 0.8%.

Table 4.32 shows percentage distribution of persons aged 15 years and above by method of family used and sector, 2008. At National level Condom was mostly used which accounted for 41.10%, followed by Abstinence with 24.10%. The least was Doude with 0.10%. Urban sector used more condom than rural sector, while Abstinence was practised more in rural sector.

Table 4.33 shows percentage distribution of deaths in the last 12 months by sex of deceased 2008. Male died more (55.6%) than female (44.4%). On the male, Lagos topped the list among the States with 100%, followed by Enugu which recorded 75% and the least was Benue with 14.3%. In terms of female, Osun topped the list among the States with 63.6%, followed by Delta which recorded 62.5% and the least was Niger with 12.5%.

Table 4.35 shows percentage distribution of birth in the last 12 months by State sector and weight (kg). The highest number of birth fall in the 3-3.99kg with 47.5%, followed by 2-2.99(kg) which accounted for 44.5%. Imo topped the list among States in the 3-3.99(kg) with 88%, followed by Ogun which recorded 76%, the least among the States was Borno with 1.3%.

## **CHAPTER FIVE UNEMPLOYMENT**

Lack of employment opportunities renders the willing and eligible persons in any society unemployed and underemployed. Unemployment situation can be detected, any captured through registration of employment status in the appropriate authority. The Federal Ministry of Labour and Productivity is the repository of such information, and also a smile for employment to the teeming unemployed population.

Table 5.1 shows the Percentage Distribution of Unemployed and Underemployed by State and Gender 2005.

The National unemployment rate in 2005 was 11.90. Nassarawa State had the highest rate with 12.8 for 15 years and above of their populations who were eligible and ready for employment this was followed by Rivers State with 10.2 as shown in table 5.1. Zamfara State however recorded the lowest rate with 0.3. The table also shows that males are predominantly their female counterparts. The same thing was also the case in underemployment situation as displayed in the table although Sokoto State had the largest underemployed of their population with 38.6, followed by Edo State with 30.9.

**TABLE 5.1 PERCENTAGE DISTRIBUTION OF UNEMPLOYED AND UNDER-EMPLOYED BY STATE AND GENDER, 2005**

FIGURE: 5.2 UNEMPLOYMENT RATES

## **CHAPTER SIX PUBLIC SAFETY**

Table 6.5a shows prison inmates population and recidivism from 2004 to 2008. In 2004, the population of prison inmates was 55,584. Majority of them were first offenders. The second in the hierarchy of the categories were inmates convicted once. They were 15,657. The least were those convicted five times and their population was 1,086. In all categories, the male folk was more than the females.

In 2005, there were 53,311 prison inmates mostly males.. Majority were those convicted for the first time (33,375), while the least were those convicted for five times (971).

This trend of distribution continued till 2008. In this year, the inmate population was 130,744 including both sexes. Majority were first offenders (47,697), while the least were inmates convicted for six times (755).

Table 6.5b: Shows the Prison Admission by Age Group from 2004-2008.

In 2004, there were a total of 143,140 prison inmates with the largest proportion of 46% coming from the age group 26-50 years. The age group with the least admission was 16-20 such that in every one hundred inmates, there was only one out of this age group.

The number dwindled slightly in 2005 with a total of 149,422 admissions. The trend in their distribution was like that of 2004. In this regard, while age group 26-50 years had 65,140 (43%) as the highest, the least (2%) emerged from the age group 16-20 years.

In 2006, the total admission rose to 299,051. That was an increase of 101%. This increase though reflecting on the age groups did not change the trend of distribution.

However, in 2007, the total admission fell to 159,418 (47%). Age group 26-50 years topped the distribution with 81,134 inmates while 16-20 years was the least with 2,639.

In 2008, the declining trend continued such that the total admission number fell to 130,744, While age group 20-50 years had the highest number of 73,071.the least number of 175 was recorded for age group 16-20 years.

Table 6.5c: Shows a Distribution of Prison Admission by Type of Imprisonment.

In 2004 of the 143,140 newly admitted prisoners, 75,123 (53%) were remanded or awaiting trial. While 45,550 (32%) were serving a short term imprisonment. 30,814 (22%) were serving a long term. Only 20 (0.01%) of them were condemned. The rest were either detained or in other forms of imprisonment.

In 2005, the type of imprisonment with the highest number of inmates was Remanding/ Awaiting Trial with 84,051( ), followed by 27,104 inmates serving long term. There were 6,035 detainees while those out rightly condemned to death were 36 .

Like in the previous years, 2006 with 127,051 had more inmates (73,538) Remanding/Awaiting Trial. Those serving a short jail term with 26,929 were second in the list while those condemned (127) increased by over 300%. Detainees (517) decreased further by , while other forms of imprisonment took 3,014.

In 2007, of the 159,418 prison inmates Remanded/Awaiting Trial recorded 86,525 as the highest. While serving short term were 38,817, those serving long term were 29,000. Only 16 inmates were condemned while 276 were in detention. Other forms of imprisonment were 4,784.

In 2008, there was a general decrease in all the term of imprisonment with the exception of those condemned. Inmates in the category of remanding/awaiting trial were 82,125. Those of them that were serving a long jail term (25,826) followed, while those serving short jail term (20,992) came third in the list. Those condemned rose to 92 while the detainees equally rose to 314.

Table 6.5d: Shows Prison Admission Classified by Religion from 2004-2008.

There were a total of 143,140 prison inmates in 2004. Majority of them (6510) were Christians. This was followed by 63,715 inmates that belonged to Islam. The least (2132) were Atheist.

In 2005, the total population of prison inmates rose to 149,422 with 68,401 Muslims topping the list. Christians (64,444) inmates followed, while the least was Atheist with 2,132. Christians (62,030) topped the population of prison inmates in 2006 with a total population of 127,051. Inmates of Islamic faith were second in the list with 37,671, and Traditional religion (10,219). Atheist (2414) was the least.

In 2007, the trend of the previous year was maintained. In 2008, the inmate's population was 130,744. As in the previous years, there were more Christians (62,258) inmates than inmates of any other faith. This was followed by 54,441 inmates of Islam faith. Atheists with 7,307 were the least.

Table 6.13: Shows The Prison Capacity Distribution By State And Years.

Between 2002 and 2005, the capacity was the same for each of these years and States. Lagos State with 2,795 had the largest capacity and was followed by Borno State with 2,000. Kwara State with a capacity of 316 was the least.

From 2006 to 2008, there was an expansion that increased these capacities. Borno State with 3,422 tapped other States. Lagos (2,795) State was the second although there was no change in its capacity. Oyo State with 364 had the least capacity. It should be noted that Bayelsa State had no prison facilities.

Table 6.16 shows total number of reported fire Outbreaks in Nigeria by type 2004-2008

The table shows that in 2004, there were 400 rescue or distress calls were made to the concerned agencies. The fire outbreak in which 5 lives were lost had 12 lives save. Estimated value of goods lost was about N23, 539,000.

In 2005, the number of domestic private fire decreased to 166. There were 169 calls to relevant institution. While 11 lives were saved, 10 were lost and goods estimated at N147, 703,000 were equally lost. There was no factory/industrial fire in 2005. Yet, there were others that attracted 63 calls. However, no losses of both lives and property were recorded.

In 2006, domestic private fire occurred 152 times and 211 calls were made. Twenty seven lives saved while 104 lives were lost. Estimated value of goods lost was N225, 600,000.

Although, there was no factor/industrial fire, yet there were other forms of fire that recorded 40 calls and claimed one live. Estimated value of goods lost was N99, 485,000.

In 2007, 141 calls were made in connection with domestics private fire outbreak. Ten lives were saved while nine lives were lost. About N100, 000,000 worth of goods were lost.

The number of factory/industrial fire was 12 for which 8 calls were made. There was no record as regards number of lives lost but 4 lives were saved with a loss of goods estimated at N8, 000,000. In 2008 domestic private fire outbreak recorded 242 calls. As many as 641 lives were saved while 76 were lost. The value of goods lost was N717, 000,000. In the same year, there were 40 factory/industrial fire with 16 calls. No live was saved at all and 24 lives were lost.

Other forms of fire outbreaks were insufficient though with 86 calls. Only 10 lives were saved while 171 lives were lost. The fire consumed about N311, 000,000.

## CHAPTER SEVEN

### POPULATION

Table 7.4 Shows Statistics of Birth and Deaths Registration by Gender from 2001-2007.

In 2001, while there was a total of 978,161 births, there were a total of 17,432 deaths. In both phenomenons, there were more males than females.

The figures have been fluctuating across the years such that in 2005, the total birth dropped to 627,636, while death equally dropped to 7,350. Majority of people in each category were also males.

There was a high increase in birth, from 882,738 in 2006 to 3,395,924 in 2007. While the total number of death for that year was 52,323. There were more males than females in each category of events.

Table 7.5: Shows the Distribution Of Disability by Type, Sex And State.

The commonest disability in 2006 was blindness (1,476,077). The males (778,429) folk outnumbered the females (697,658). The State with the highest population was Kano State (116,691). In this State, the population of male blind people was 116,691 while that of females was 19,429. Although, there were several other disabilities, blindness was most prominent. The disability with the lowest population was dumbness (368,060). They were mostly males (192,411) as in the previous, while the females accounted for 175,649. Lagos State (26,228) was the worst hit. The males' category accounted for 13,786, while the females were 12,442.

Table 7.6: Shows the Population Distribution by Age Group and Sex.

In 2006, the total population was 140,431,750. The males were 71,345,488, while the females were 69,086,302. The age group with the highest population was age group 70-74 with 56% for male and 44% for female. Age groups 45-49, 50-54, 60-64, 75-79, 85+ had equal population. For both male and female and at the same time were second to the highest.

The age group with the least population was age group 25-29, while their males were 45%, and their females were 55%.

Table 7.7: Shows the Distribution of Registered Deaths by Year and State.

In 2003, there was an official registration of 11,903 deaths. Lagos State (2,233) had the highest followed by Plateau State (1,259). In 2004, there were 11,545 deaths that were officially registered in Lagos (1,552). In 2005, the number of officially registered death went down to 7,354. Ogun State (1,169) topped other States. In 2006, the figure went up again to 13,178 with Ogun State (1,411) recording the highest number. In 2007, the number further increased to 23,882. Anambra State (2,317) had the highest followed by Katsina (1,598) and Ogun (1,322).

Table 7.10 Shows the Distribution of Registered Births By Sector in 2007.

In this year, there were a total of 1,218,877 births registered in the urban, while the rural had 588,148 altogether making a total of 1,807,025. Lagos State (210,161) had the highest registration for both urban (171,896) and rural (38,265). The least registration was in Taraba State (20,485) with 14,063 in the urban and 6,422 in the rural.

FIGURE 7.10 PERCENTAGE DISTRIBUTION OF LIVE BIRTH IN NIGERIA (2002 – 2007)

## **CHAPTER EIGHT LEGISLATURE.**

Elections in Nigeria in the years 1999, 2003 and 2007 were to fill various political post declared by the Independent National Electoral Commission (INEC), and were contested for by a number of political parties.

Table 8.18 shows number of justices and judges in the federal courts, 2008. The sub-total of justices were 75, male accounted for 59 (about 79%), while female recorded 16 (about 21%). Also the sub-total of judges were 107, male had 86 (about 80%), while female recorded 21 (about 20%).

Table 8.19 shows the number of judges in the State high court, 2008. The total number of judges in the State high court were 613. Male had 438 (about 71%), and female 175 (about 29%). Lagos state topped the list of the States with 51, followed by Delta which recorded 32. The States with the least number of judges were Ekiti, Sokoto and Zamfara with 8 judges respectively..

Table 8.20 shows number of judges in the State customary courts of Appeal in 2008. The total number of. Males were 52 (about 80%), while females were 13 (about 20%). Delta topped the list among the States with 7, followed by Ebonyi, Edo, Imo, and Plateau which recorded 6 each. The least among the States were Abia, Anambra, Nassarawa, Osun, rivers, and Taraba with 4 each.

Table 8.21 shows number of judges in the State Sharia court of Appeal in 2008. The total number of. Males were 112 (100%).. Kano state topped the list with 11 judges followed by Gombe with 10 and the least was Nassarawa with 3.

Table 8.22 shows political office holders who declared their assets by State from 2001-2007. The number decreased from 4,549 in 2001 to 3,400 (about 25%) in 2002 and rose to 5,965 (about 75%) in 2003. In 2006, it increased from 2,838 to 9,030 (about 21.8%) in 2007. Borno state topped the list with 1,487 followed by Katsina with 1,346, and the least was Jigawa with 39.

Table 8.23 shows civil servants between GL12-GL17 who declared their assets by States 2001 to 2007. In 2001 the number of officers that declared their assets were 18,325 while a decrease of 43 percent was recorded in 2002, In 2003 to 2007 there was a steady increase. Ekiti state topped the list with 4660, followed by yobe with 2429 and the least was FCT with 64 .

## CHAPTER NINE COMMUNICATION

This chapter is on postal services and telecommunication subscriber information on traffic (mobile), pre paid charges in Naira, volume, and value of calls/messages in Nigeria.

The structures for effective mail delivery in the country consist of the Departmental, Sub-post, Mobile post, Postal Agencies and the Head post offices. This structure enhances the efficiency of mail delivery in the country. Consequentially, the country has been delineated into post code areas, each of which is identified by a district post code. The delineation criteria were determined for the convenience of mail delivery. the postal and Telecommunication services cannot be over-emphasized as it enhances the communication and distribution of parcels to both individual and corporate organisation.

Table 9.0 to 9.1d shows the postal services from 2004 to 2008 by States. In 2004, the number of postal agencies were highest with 1,799 representing 59.5 percent, while the least; mobile post office had 0.86 percent. The post agencies recorded the highest in 2005 with 1,708 representing 58.9 percent, while the least, mobile post office with 18 represents 0.62 percent. The sub-post offices had the highest number of posts with 1,459 in 2006 representing 55.2 percent, while the least was mobile post offices with 63 posts representing 2.4 percent. In 2007, the postal agencies had the highest number of 1,025 posts representing 48.2 percent, while the least was mobile post with 16 posts represents 0.75 percent. The same trend occurred in 2008 with postal agencies having 54.3 percents of the postal services while the mobile post had 0.69 percent as the least.

Table 9.2 shows the distribution of NIPOST boxes and PMBs by States from 2005-2008. The number of boxes installed increases over the years from 747,123 in 2005 to 1,415,118 in 2007, representing 89.4 percent but decreased to 776,278 in 2008 which accounts for 45.1 percent. The total number of boxes rented was highest in 2007 with 716,314, while the least was in 2005 with 337,764. Lagos State had the highest number of business boxes for the two consecutive years of 2005 and 2006 with 14,334 and 20,955 respectively. In 2007, Imo State recorded the highest number with 34,726, while Lagos continued her leading role in 2008 with 21,923.

The total number of private boxes increased from 257,888 in 2005 to 288,870 in 2006 representing 12.0 percent. This increase continued in 2007 with 583,096 representing 101.8 percent and decreased to 275,818 representing 47.3 percent.

The total number of unrented boxes varies from one year to the other. A total of 431,888 was recorded in 2005 and decreased to 388,872 in 2006 representing a decrease of 9.9 percent. A sudden increase was observed in 2007 with 698,804 representing 79.7 percent, while a subsequent decrease followed in 2008 with 396,694 representing 43.2 percent. Lagos State record the highest number of available PMBs in 2005 with 1,524, while Abia State ranked second with 971. Taraba State had the least with 251. In 2008, Lagos State maintained her leading role in the number of available PMBs with 2,752, while Enugu State ranked second with 997, and Kebbi State was the least with 254. In 2005, Lagos State had the highest number of PMBs rented with 1,002 while Cross River State had the least with 22. In 2008, Lagos State maintained the lead with 1,024, while Kebbi State had the least with 17. Enugu State had the highest number of unrented PMBS in 2005 with 626 while Osun State had the least with 55. In 2008, Lagos State had the highest number of unrented PMBS with 1,728, while Osun had the least with 29.

Table 9.4a shows telecoms subscribers from 2004 to 2008. The number of subscribers of telecom services has been on the increase over the years. In 2004, the total number of subscribed lines were 10,201,728 which increased to 64,296,114 in 2008. Mobile lines recorded 9,174,209 in 2004 and increased from 1,027,519 in 2004 to 1,673,161 in 2006, but dropped to 1,579,664 in 2007 with a subsequent increase of 1,307,622 in 2008.

Table 9.6 shows communication sector from 2002 to 2008. The number of telephone lines in cell phone (fixed) has been on the increase from 702,000 in 2002 to 1,673,000 in 2006 but dropped steadily to 1,307,000 in 2008. Telephone lines in cell phone (mobile) increased from 1,569,000 in 2002 to 62,988,000 in 2008. Total mail sent abroad fluctuates within the period of report (2002-2008). The highest number of mails sent abroad was in 2003 with 9,200 while the least was in 2006 with 3,200. Most of these mails were by air. The total mail from abroad was highest in 2003 with 31,600 while the least from abroad was 10,100 most of these mails were by air. The highest internet mail was 47,500 in 2003 while the least was 1,900 in 2006.

The tele density increases over the years from 1.89 in 2002 to 15.72 in 2005, and decreased to 24.18 in 2006. It however, increased to 45.93 in 2008, while the incoming direct traffic had the same trend, from 117.3 million in 2002 to 20,079 million in 2008. The telephone exchange remained the same from 2002 to 2003 with 2887 but increased in 2004 with 312 to 315 in 2005. While the telephone booths were fluctuating over the years. Telephone transit centres remained the same over the years with 53.

Table 9.7 shows subscribers and industry information in 2007 and 2008. The mobile pre-paid increased from 40,112,842 in 2007 to 56,441,737 in 2008 representing 40.7 percent, while the post-paid increased from 282,769 in 2007 to 396,382 in 2008 representing 40.2 percent. The fixed pre-paid increased from 1,564,025 in 2007 to 6,083,488 in 2008 representing 289 percent , while the post-paid increased from 15,639 in 2007 to 191,419 in 2008 representing 1,124 percent.

Table 9.9 shows the total number of employees (mobile) in 2007 and 2008. The total number of Nigerian employees decreased from 6,710 in 2007 to 3,349 in 2008 representing 50 percent, while the total number of expatriate increased from 173 in 2007 to 179 in 2008 representing 3.5 percent. in 2007, the number of Nigerian female employees were 2,194 while there was no female in 2008. The number of female expatriate employees decreased from 5 in 2007 to 2 in 2008 representing 60 percent.

## **CHAPTER TEN TRANSPORTATION.**

As an engine of growth, transportation plays a vital role in social and economic development of a nation, particularly in facilitating movement of people, goods and services. This chapter dealt on federal roads length work, railway and air transportation in Nigeria.

Table 10.2 shows length of federal Roads by State classified as Trunk, Secondary, Branch and Border routes in kilometres. In 2006, the total length of federal roads was 34,340 kilometres and this increased to 36,182 kilometres in 2008 (about 5.0 per cent). On State basis, Niger had the most length of trunk routes of about 1,686 kilometres, followed by Kaduna with 1,263 kilometres. The least length of trunk routes was recorded by Bayelsa with 36 kilometres; Borno State recorded the longest length of secondary routes with 1,492 kilometres while Lagos had the least of 73 kilometres. In 2008, Niger State had the longest total of federal roads with 2,189.20 kilometres, followed by Borno State with 2,207.00 kilometres. The least was recorded by Bayelsa State with 167.00 kilometres.

Table 10.3 presented information on train accidents in Nigeria, 2002 to 2006. In 2004, a total of 89 train accident was recorded and it dropped to 46 in 2006. Derailment recorded the highest number of 31 (about 67.4%) of total train accident in 2006. Collision of trains ranked second with 15.2%, while the least occurrence of accident was due to wash-out (6.5%).

Table 10.4a shows the Nigerian Railway Corporation passengers/haulage output. 2008 recorded the highest number of passengers with 1,999,324 about 181.7% over 2006 record of 708,482. The volume of haulage was highest in 2005 with 846,512 while 2006 recorded the least with 41,219. On revenue generation, 2002 recorded the highest with N1, 430,000,000 while the least was 2008 with N312, 000,000.

Table 10.4b shows the Nigerian Railway Corporation cost of operations/inputs, (2003-2008). The total cost of operation was highest in 2005 with N85.4 Billion attributed to depreciation and capital consumption allowance, while 2006 recorded the least with N2.4 Billion on cost of fuel, repairs and maintenance, salaries/wages and others.

Table 10.6a shows arrival of passengers at the domestic airports in Nigeria, 2003-2007. In the five years under review, 2004 recorded the highest number of arrival with 2,992,649 passengers, while 2003 had the least of 2,592,579 passengers. In 2007, Lagos airport had the highest number of passengers with 978,729 while Katsina airport recorded the least with 564 passengers. Between 2004 and 2007, there was a downward trend in passenger movement from 2,992,649 to 2,703,464 about 9.7% decrease.

Table 10.6b shows the departure of passengers at the domestic airports in Nigeria, 2003-2006. 2005 recorded the highest number of departure with 2,969,131 followed by 2004 with 2,889,386 passengers, while the least was recorded in 2003 with 2,657,922. Lagos airport leads others with 1,010,617 about 37.9% of total departure in 2007, while Katsina airport had the least with 664 passengers about 0.02 percent.

Table 10.7 shows the distance from State capitals to Abuja, the Federal Capital Tertiary. Damaturu, Yobe State capital recorded the longest distance of 957 kilometres, followed by Maiduguri, Borno State capital with 918 kilometres. The shortest distance was recorded by Minna, Niger State capital with 156 kilometres.

## CHAPTER 11

### ENERGY

11.0 Energy is one of the main sources of social and economic development in the country. Every other sector centres around it for growth. The growth from the other sectors depends on the amount and quality of energy generated and distributed.

11.1a Shows the energy generated from 2007-2008 nationwide by stations. Energy generated in 2007 and 2008 amounted to 22,978,128.66 MWH and 20,980,778.96 respectively. 2008 shows a drop of 1,997,349.7 over 2007 energy generated. In the years of reference Egbin power station recorded the highest energy generated with 23 per cent and 21 per cent in 2007 and 2008 respectively. Monthly generation of energy in 2007 shows that september recorded the highest with 2,166,412.15 while in 2008 october was the highest with 2,245,353.74

#### 11.2 Energy Distribution IN (MWH), 2007 – 2008

In 2008 the energy distributed decreased by 4.49 per cent as against the distribution of 2007 nationwide as shown in table 11.1a. Egbin power station contributed the highest with 21.84 per cent of the total energy distributed in 2008 while Jebba and Okpai stations had 13.06 per cent and 12.73 per cent respectively. The least of energy distributed came from Ajaokuta station with 0.04 per cent. In october 2008 energy distributed was highest with 10.93 per cent of the total energy distributed, while september and January accounted for 9.96 per cent and 9.29 per cent respectively. June was the lowest with 5.88 per cent

#### 11.3 Energy Delivered To The Zones/District From the Grid, 2007 – 2008

Table 11.3a shows that energy delivered to the zones in 2008 was an improvement of 52.32 percent over the 2007 record. Ikeja zone received the highest delivery in 2007 with 16.19 percent of the total, followed by Eko zone with 12.94 percent. The NIGELEC Zone had the lowest with 1.84 percent. But the 2008 record was a complete reversal of the lowest in 2007 as it had the highest in 2008, dominating with 50.00 percent of the total. It was however followed by Ikeja and Ibadan zones with 7.85 percent and 6.58 percent respectively. Yola zone recorded the lowest with 1.13 percent.

In another development, the total energy delivered to DISCUS in 2007 amounted to 19,670,622.59MWH as recorded in table 11.3b. it however dropped by 6.20 percent in 2008, where Ikeja DISCOS accounted for the highest with 14.35 percent of the total, Ibadan and Abuja DISCOS followed with 11.73 percent and 11.18 percent respectively, while Itakpe recorded the least with 0.01 percent.

#### 11.4 Comparison of Energy Transmitted To Energy Delivered, 2006 – 2007

TABLE 11.4 recorded that energy transmitted in 2006 was 23, 051, 062.73, where 9.06 percent of it was lost in delivery. The energy transmitted in 2007, however, dropped by 5.60 percent to 21, 759, and 782.23 with 9.60 percent also getting lost on delivery.

The highest loss was recorded in October with 11.70 percent, followed by September and may with percent losses of 11.34 and 11.11 respectively. The lowest loss was however recorded in December, 2007 with 7.32 percent.

## **CHAPTER 12**

### **RELIGION**

This chapter is on the distribution of Muslim pilgrim's welfare by States for the period of 2002 to 2008. Muslim pilgrimage in Nigeria has been a routine spiritual exercise in Nigeria. The demand for this spiritual exercise has been on the increase from the various State of the federation. This high demand raised the consciousness of the federal government to establish the pilgrims welfare board/agencies.

Table 12.1 shows the distribution of seats to States by Muslim pilgrim's welfare board from 2002-2008. The highest number of pilgrims' seats was observed in 2008 with 84,920. Kaduna State had the largest number of 8,040 while the least was from Anambra State with 44. 2007 had the second largest number of pilgrims' seats with 79,184 and Kaduna State still maintained the lead with 7,076. The least for those years was Abia State with 36 seats. 2004 recorded the least number of pilgrims seat with 50,164. Kano State had the largest number of seats with 5,773 while Anambra had no seat.
